

value_counts()

a sorted series containing unique values and their counts

```
ser.value_counts( sort=True,  
                  ascending=False,  
                  dropna=True,  
                  normalize=False )
```
